

Data Help Desk at EGU21 Volunteer Form

Volunteer to be a Data or Software Expert for the upcoming Data Help Desk to be hosted during the first week of the 2021 European Geosciences Union General Assembly (#EGU21: Gather Online; 19-23 April 2021). The Data Help Desk, which is a program of the Earth Science Information Partners (ESIP), EGU, AGU, and their partners, connects researchers with informatics experts familiar with their scientific domain to learn about skills and techniques that will help further their research and make their data and software more open and FAIR. You can volunteer to take part in one or more of the following ways:

- 1) Answer earth science data questions (monitor platform and answer where you can);
- 2) Share a recorded demo (share a brief recorded demo of a tool or resource, ideally <5 min);
- 3) Share a one-pager about your tool or resource.

Please complete this form as soon as possible by <deadline date>. If you have participated in past Data Help Desks, please still fill out this form and indicate whether we may again share resources you may have contributed in the past. If you have questions, please contact <contact email>.

Name*

Your answer

Email *

Your answer

Organization *

Your answer

Job Title*

Your answer

Do you and/or your organization have a Twitter/Bluesky handle? If so, please list.*

Your answer

What general data topics could you provide help with?*

e.g., General Data Management, Information Management, Metadata, Data Repositories, Programming, Data Publication, Data Visualization, Data Analysis, Data Management Plans

Your answer

What specific resources or projects do you represent or could you provide advice on working with? For each, please indicate whether you work on the resource or are only familiar with using it.

Your answer

Do you want to volunteer as a Data Expert, who can answer data-related questions via Social Media? *

There will be multiple experts on call throughout the week. Your job would be to monitor twitter (#DataHelpDesk} and respond where you can and/or retweet questions to other individuals or organizations who you think could answer. We may also share a backchannel for volunteers to review/answer questions.

☐ Yes

☐ No

Are you interested in contributing a short recorded demo of a data-related tool or resource? If so, please name the tool or resource and describe it in brief. You are welcome to share existing recordings. If making a new recording, we recommend that it be 5 minutes or less in length. *

Your answer

Are you interested in contributing a one-pager? If so, please name the tool or resource and describe it in brief. You are welcome to share existing materials as well. *
